Richland, WA 99352

Dear Mr. Pak:

Re: 200-Area Ecological Investigation DOW

This office received a Description of Work for 200-Area Ecological Investigations, WHC-SD-AP-127 today. I will be unavailable to review this DOW within the usual two week period, but expect to be finished by the end of June. However, there may be some points that will justify taking the time to further define the ecological investigation.

I hope that the several delays of the DOW will impel Ecology and USDOE to work in a more coordinated manner on future projects. As pointed out in our letter dated May 7, 1993, early involvement by the regulatory parties to the Hanford FFAO is beneficial to cleanup progress.

Sincerely,

Steve Cross
