Hi Teri, I have received some requested changes in the letter and finding and a couple of errors were noted.

Tom Zeilman noted a stray comma in the second sentence of the third paragraph on page 1. after words "River Corridor. I have removed it in the attached draft.

Jay noted that the chair for the HAB is Merilyn Reeves, I have changed that in redline.

I noted on page 3, last paragraph, second to last setence benefited should have two t's thus benefitted in redline

Jake had a major request for a change in both the letter and the finding, last paragraph, page 1 and third bullet in the finding to clarify that the land is going to be managed under existing agreements between DOE-RL and FWS. I made those changes in Redline. I guess you will need to make changes and send out again so that trustees are signing corrected finding.

Thanks. Tom
