This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

The 2607-EJ Septic System was the original system that serviced the 272-AW building. The tank and drainfield have been removed.

**Basis for reclassification:**

The 2607-EJ Septic System was removed during site preparation for the construction 241-AP Tank Farm. The tank and drainfield were in the layback for the 15 meter (50 foot) deep excavation for the tank farm.
