Re: Request for Extension for the 303-K Radioactive Mixed Waste Storage Facility Notice of Deficiency Response Tables and Revised Closure Plan

Dear Messrs. Izatt and Lerch:

The Department of Ecology has reviewed your January 31, 1991, letter requesting a two-week delay between submittals for the 303-K Radioactive Mixed Waste Storage Facility and the 304 Concretion Facility. As discussed at the unit manager's meeting of January 10, 1991, Ecology agrees that staggering the submittal dates for these two facilities is appropriate. The due dates will be changed for the additional NOD information from January 30, 1991, to February 14, 1991, and for the revised closure plan from April 8, 1991, to April 22, 1991.

Sincerely,

Timothy L. Nord
Hanford Project Manager
