

## Waste Site Reclassification Form

<b>Date Submitted:</b> 1/29/2001  <b>Originator:</b> S. G. Weiss  <b>Phone:</b> 372-9495	<b>Operable Unit(s):</b> 200-ST-1  <b>Waste Site ID:</b> 600 ESST  <b>Type of Reclassification Action:</b> Rejected <input type="radio"/> Closed-Out <input checked="" type="radio"/> No Action <input type="radio"/>	<b>Control Number:</b> 2001-020
--	--	---------------------------------

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

This is the septic system associated with the Exploratory Shaft Facility. The unit received sanitary wastewater.

**Basis for reclassification:**

Decommissioning and reclamation work was completed at the Exploratory Shaft Facility on March 23, 1988. The septic tank was pumped out, the access manhole covers were removed, and it was backfilled with clean sand. The sanitary concrete distribution box was removed and voids were filled. The steel posts and barrier rope around the drainfield were removed, and the drainfield pit was backfilled.
