Dear Mr. Holt:

This letter is in response to the supplemental information provided on August 24, 1993, regarding the April 9, 1993, Application for Approval of Modification for the 105 KE Encapsulation Activity. My staff has reviewed your submittal and the additional information provided. Based on that review I have determined that the proposed facility, if properly operated, will not cause emissions to exceed the standards of Title 40 Code of Federal Regulations (40 C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08, I hereby grant approval of the modification for the 105 KE Encapsulation Activity as described. 32051

If you have any questions regarding this approval, please contact me at (206) 553-4152, or Richard Poeton at (206) 553-8633 for technical matters.

Sincerely,

Jim McCormick, Director
Air and Toxics Division
