APPROVED FOR
PUBLIC RELEASE
6/28/93 R. Shaver

7. Abstract

8. PURPOSE AND USE OF DOCUMENT - This document was prepared for use under the U.S. Department of Energy and its contractors. It is to be used only to perform, direct or indirect, work under U.S. Department of Energy contracts. This document is not approved for public release until reviewed.

PATENT RIGHTS - This document is being submitted in advance of patent clearance, is made available for use solely for use in the performance of work under contracts with the U.S. Department of Energy. This document is not to be published nor its contents otherwise disseminated or used for purposes other than specified above before patent approval for such publication or use has been secured. Requests from the Patent Office, U.S. Department of Energy Field Office, Lowell, MA.

DISCLAIMER - This report was prepared in an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, nor any of their contractors, subcontractors or their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or any third party's use or results of such use of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof or its contractors or subcontractors. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.
