Re: Dangerous Waste Compliance Inspection on November 21, 2019, at the Single-Shell Tank System Central Accumulation Areas, RCRA Site ID: WA7890008967, Nuclear Waste Program (NWP) Compliance Index No.: 19.689

Dear Brian T. Vance and John R. Eschenberg:

Thank you for your staff's time during the Single-Shell Tank System Central Accumulation Areas inspection on November 21, 2019. The Department of Ecology's (Ecology) compliance report of this inspection is enclosed. The report cites one area of non-compliance and two concerns.

To return to compliance, complete the actions required in the compliance problems section of the report and respond to Ecology within the timeframe specified. Include all supporting documentation in your response, (such as photographs, records, and statements explaining the actions taken and dates completed). Submit this information to Jonathan Rogers at 3100 Port of Benton Boulevard, Richland, Washington 99354.

Failure to correct the deficiencies may result in an administrative order, a penalty, or both, as provided by the Hazardous Waste Management Act (Revised Code of Washington 70.105.080 and .095). Persons who fail to comply with any provision of this chapter are subject to penalties of up to \$10,000 per day per violation.

Specific deficiencies or violations not listed in the enclosed compliance report do not relieve your facility from having to comply with all applicable regulations.

Brian T. Vance and John R. Eschenberg
