Mr. Michael A. Wilson, Manager  
Nuclear Waste Program  
State of Washington  
Department of Ecology  
P.O. Box 47600  
Olympia, Washington 98504-7600

Dear Mr. Wilson:

TRANSMITTAL OF HANFORD SITE UNIRRADIATED URANIUM DISPOSITION  
ASSESSMENT REPORT

Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) Milestone M-33-00 was established to prompt development of milestones necessary for storage, treatment/processing, and disposal of Hanford Site solid wastes and hazardous materials not yet covered under the Tri-Party Agreement. As a result, M-92-00 was developed to govern acquisition of new facilities, modification of existing facilities, and/or modification of planned facilities necessary for storage, treatment/processing, and disposal of Hanford Site cesium and strontium capsules, unirradiated uranium, bulk sodium, and 300 Area special case waste. M-92-00 identified target Milestone M-92-08-T01 to assess RL's uranium disposition initiative for potential impacts to other Tri-Party Agreement projects.

This letter also provides notification of completion of Tri-Party Agreement target date M-92-08-T01, Submit Hanford Site Unirradiated Uranium Disposition Assessment Report, due June 30, 1998. The report is enclosed.

If you have any questions, please contact either Angel B. Joy on (509) 373-7834, or Mark R. Hahn, on (509) 373-9872.

Sincerely,

George H. Sanders, Administrator  
Hanford Tri-Party Agreement
