## EXECUTIVE SUMMARY

The Annual Dangerous Waste Report (ADWR) is prepared to meet the requirements of Washington Administrative Code Sections 173-303-220, “Generator Reporting,” and 173-303-390, “Facility Reporting.” In addition, the ADWR is required to meet Hanford Facility Resource Conservation and Recovery Act of 1976 (RCRA) Permit Condition I.E.22, “Annual Report.”

The ADWR is submitted to the Washington State Department of Ecology (Ecology) by March 1<sup>st</sup> (Annually). The ADWR provides information on dangerous waste generation and management activities for the following U.S. Department of Energy Hanford Site locations and U.S. Environmental Protection Agency/state Identification Numbers:

<b><u>Address:</u></b>	<b><u>NAICS Code:</u></b>	<b><u>Identification Number:</u></b>
Hanford Facility	562211	WA7890008967
2355 Stevens Drive	493110	WAH000009159
825 Jadwin Ave, Federal Bldg	924110	WAR000010975
1030 Battelle Blvd	493110	WAH000048800

The report is comprised of forms that are completed following instruction published by Ecology. A brief overview of the forms is provided below:

**Site ID Form:** Provides the most recent location, contact information, and generator status. Also identifies the types of waste management activities performed.

**Generation & Management Form:** Provides detailed information about generated waste streams (e.g., waste codes, quantities, treatment/disposal methods, etc.)

**Off-Site Identification Form:** Provides the name, address, and RCRA Site ID Number(s) of dangerous waste handlers that Hanford contractors interacted with when sending waste off-site or when receiving waste from off-site.

**Waste Received Form:** Provides information about how Hanford contractors managed waste streams received from off-site.

The U.S. Department of Energy, Richland Operations Office (RL) officially transmits the ADWR electronically using the TurboWaste.net web site maintained by Ecology. In addition to the electronic report, the RL also transmits a single follow-up hard copy report containing data for each of the Site Identification Numbers above.
