Hearing/Meeting Richland, Wa. Location 5/20/99 Date

Having moved to this area within the past three years, I was shocked at the absence of pristine undeveloped land. The expansion of agriculture, even within these three years, is extremely rapid. Please make the decision now to preserve Hanford for wildlife. Set aside all of the Wabluke Slope, the Arid Lands Ecology Reserve and McGee Ranch, and the Hanford Reach and its islands; a separate Record of Decision for all these areas should be made now to provide protection for future generations.

Additionally, choose the alternative that provides the greatest protection for Hanford lands into the future. The DOE preferred alternative doesn't provide enough protection. No grazing, agriculture, or development should occur on Hanford. The only exceptions should be those cleanup activities necessary to finish cleanup, and some industrial development associated with the already industrialized 300 area.

Once Hanford has been opened to any type of agriculture or grazing there will be no chance to save these areas.  
Thank you for accepting these comments,

William D. Adair, Family
