

TPA Change Package Comments
Clean-up of contamination threatening the Columbia River today must not be used as a justification for delaying clean-up

Richland, WA 99352

The delays in cleaning up the leaking tanks at Hanford has already gone on for far too long. Further delays are simply unacceptable. Refusing to allow input from Oregonians in a convenient, populated location (Portland) is also unacceptable, given the potential impacts to Portland citizens. Thank you for this opportunity to comment.
Dona Hippert, Portland, OR
