April 27, 1989

Mr. R.D. Izatt, Director  
Environmental Restoration Division  
U.S. Department of Energy  
P.O. Box 550  
Richland, Washington 99352

Mr. R.E. Lerch, Manager  
Environmental Division  
Westinghouse Hanford Company  
P.O. Box 1970  
Richland, Washington 99352

Dear Messrs. Izatt and Lerch:

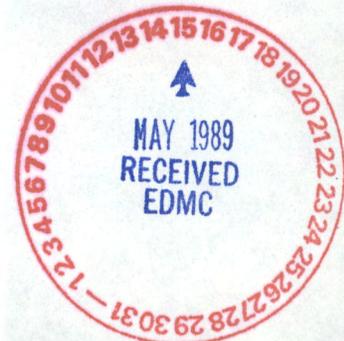

**Re: Notice of Deficiency: 300 Area Solvent Evaporator Closure Plan**

Please note that we have received and reviewed your 300 Area Solvent Evaporator Interim Status Closure Plan dated February 1989. Deficiencies identified within the plan are listed in the attachment to this letter.

Our review evaluated the plan's compliance with Washington State Dangerous Waste Regulations to include any references to the federal RCRA program. Where applicable, specific regulatory cites are noted after individual comments. All comments are referenced to corresponding pages within the closure plan.

This notice of deficiency should be addressed and a response forwarded to our office by June 9, 1989. Any request for extension of this deadline must be made in writing and should be accompanied by pertinent and supportive data.

It is our intention that the next iteration of this plan will be the final document for our approval. Therefore, I suggest we discuss and agree upon your revisions prior to submittal. Please note that I have assigned Mr. Joe Witczak as Ecology's 300 Area Solvent Evaporator Unit Manager.
