Dear Mr. Nord:

PROPOSED SUBMITTAL DATE FOR A NOTICE OF DEFICIENCY RESPONSE TABLE AND REVISED TEXT ASSOCIATED WITH THE 616 NONRADIOACTIVE DANGEROUS WASTE STORAGE FACILITY DANGEROUS WASTE PERMIT APPLICATION (S-6-1)

Reference: Letter, R. D. Izatt, DOE-RL, and R. E. Lerch, WHC, to T. L. Nord, Ecology, "Response to August 30, 1990, Notice of Deficiency for the 616 Nonradioactive Dangerous Waste Storage Facility Dangerous Waste Permit Application," 90-PPB-201, dated September 19, 1990.

In view of the fact that no response was received from the State of Washington Department of Ecology (Ecology) regarding the referenced letter requesting an extension for submittal of a revised 616 Nonradioactive Dangerous Waste Storage Facility (616 NRDWSF) Dangerous Waste Permit, this letter establishes a schedule for submittal for a Notice of Deficiency (NOD) response table and associated revised text for review by Ecology. This submittal will not include text associated with the following unresolved issues having Hanford Site implications:

- o sample verification approach
- o provision of closure costs
- o contingency/emergency plan approach
- o container labeling.

The above issues are among several that require further discussion in the context of the development of the Hanford Facility Permit. Until these issues are resolved, we consider it premature to finalize the entire 616 NRDWSF Permit Application as the majority of the substantive NOD comments relate to these facility issues.

A NOD response table and the associated revised text addressing all other issues will be submitted to Ecology for review on November 29, 1990. This date responds to the next scheduled 616 NRDWSF unit managers meeting.
