**M-026 LDR Report Project Manager Meeting Minutes
at
2420 Stevens Center, Conference Room 176
Richland, Washington
Meeting Held October 19, 2004
9:30 am to 11:30 am**

1. Last meeting minutes
2. Hot topics
 - Ecology LDR Report comments: Ecology raised no concerns with the proposed responses. DOE will transmit responses to Ecology by October 29, 2004.
 - Inspection Status: Ecology is preparing a draft letter and is expected to schedule a closeout meeting.
 - Ecology's questions on Section 2.11 of LSDS and 241-CX Tank System: See attachment 4 for a copy of Ecology's October 7, 2004 email. The first item will be carried as a workshop item. The second item was answered in the PMM.
3. Storage Assessments/Data Gap Plans provided to TPA Lead Regulatory Agency Project Managers
 - None
4. Action Item Status (See Attachment 3)
5. Workshop items
 - Consolidation of requirements documents and any other new agreements from workshops (From March 14, 2002 Resolution of Dispute) – Ongoing. Most likely will be addressed in the spring/summer of 2005.
6. Next meeting (date and time): November 16th, 2004, 9:30 – 11:30

Cc: Wilson, Bob; Skinnarland, Ron
Subject: LDR PMM

Hi Tony,

I've got a couple of items I'll want to discuss for the LDR meeting on 10/19/04.

1. The instructions for the data sheets. Specifically, question 2.11.1. The instructions for this question are not allowing the data sheets to fulfill their intended purpose of indicating which waste locations actually need further characterization. We'll want to think about making some modifications to the instructions.
2. The Semi-works complex was demolished and entombed in 1986, including the 201-C process building. Apparently the remnants this building contains several tons of lead. Is this lead in the LDR report? Are there other locations we know of similar to this situation? If necessary, lets have someone knowledgeable of what remains of the Semi-works complex join us.

Thanks.

Eric Van Mason
