Dear Mr. Conklin:

TRANSMITTAL OF AS LOW AS REASONABLY ACHIEVABLE CONTROL  
TECHNOLOGY (ALARACT) DEMONSTRATION FOR THE T-PLANT COMPLEX

This letter transmits the ALARACT Demonstration for the T-Plant Complex as agreed to in the Washington State Department of Health (WDOH) letter AIR-03-601. This ALARACT demonstration contains information needed to enable WDOH to better understand the diverse and complex operations that the T-Plant Complex performs. The references to permits and contractor documents in the ALARACT are offered solely to illuminate work performed at T-Plant. The referenced documents include practices for which there is no regulatory requirement and the documents may be changed as appropriate. The references may not be cited in NOC approvals. The enclosed document contains information that may be exempt from public release under the Freedom of Information Act. Approval by the U.S. Department of Energy prior to a public release is required. If you have any questions, please contact Mary F. Jarvis, of my staff, on (509) 376-2256.

Sincerely,

Joel Hebdon, Director  
Regulatory Compliance and Analysis Division
