Mr. Douglas R. Sherwood
Hanford Project Manager
U.S. Environmental Protection Agency
712 Swift Boulevard, Suite 5
Richland, Washington 99352

Dear Messrs. Nylander and Sherwood:

SUBMITTAL OF HANFORD FEDERAL FACILITY AGREEMENT AND CONSENT ORDER CHANGE CONTROL FORM #M-15-94-02, ESTABLISHMENT OF 200-UP-2 RESOURCE CONSERVATION AND RECOVERY ACT FACILITY INVESTIGATION/CORRECTIVE MEASURES STUDY WORK PLAN INTERIM MILESTONES

Enclosed for your approval is the proposed change control form to establish new interim milestones for the 200-UP-2 Source Operable Unit (OU) Limited Field Investigation (LFI) Work Plan. The selection of these proposed milestones is based on the assumption that activities associated with the 200-UP-2 OU will not extend past the issuance of the LFI report.

If you have any addition or deletion to the proposed milestones, please contact Mr. P. M. Pak on (509) 376-4798.

Sincerely,

Steven H. Wisness
Hanford Project Manager

DESCRIPTION/JUSTIFICATION AND IMPACT FOR CHANGE REQUEST PACKAGE
NUMBER M-15-94-02
ADDRESSING 200-UP-2 OPERABLE UNIT

DESCRIPTION (cont.)

The DOE/RL-91-19, 200-UP-2 RFI/CMS Work Plan, Revision 0 was approved by the State of Washington Department of Ecology (Ecology) in August 1993. The approval indicated that any changes to the document as a result of the public comments would be attached as an addendum to the documents. Ecology has completed their response to the public comments and no changes to the document have resulted.

JUSTIFICATION OF CHANGE

This change creates specific interim milestones for near term activities based on the DOE/RL-91-19, 200-UP-2 Operable Unit Project Schedule, Revision 0, Plate 2. Validated chemical and radiochemical data for 200-UP-2 borings 299-W19-94, 95, 96, 97, and 98, 299-W22-78, 299-W23-231, 216-U-10 Pond Test Pit #2, and the 216-U-8 Crib Effluent Pipeline Integrity Investigation will be provided to the regulators in report form by June 30, 1994. The 216-U-10 Pond Test Pit #1 has been changed from a test pit to boring 299-W23-231 based on the results of preliminary data from test pit #2.

Additional data collected as a result of other tasks within this investigation (for example that from borehole physical samples, spectral logging, air sampling, surface soil sampling results, or surface radiation surveys) will be provided to the regulators at the monthly Unit Managers Meetings as they become available. This practice is consistent with that negotiated for data deliverables in the 100 Areas.
