

## U.S. Department of Energy

Hanford Field Office

P.O. Box 550

Richland, Washington 99352

March 6, 2025

25-ECD-0031

Ms. Stephanie Schleif  
Program Manager  
Nuclear Waste Program  
Washington State Department of Ecology  
3100 Port of Benton Boulevard  
Richland, Washington 99354

Dear Ms. Schleif:

### CHANGES TO NON-ENFORCABLE PORTIONS OF THE HANFORD FACILITY RESOURCE CONSERVATION AND RECOVERY ACT PERMIT ATTACHMENT 4A

This letter transmits information to support non-enforceable changes to the Hanford Facility Resource Conservation and Recovery Act Permit, Dangerous Waste Portion for the Treatment, Storage, and Disposal of Dangerous Waste (Permit) Attachment 4A. The attached information is provided per Permit Condition II.A.4.a, which states: "When changes are made to non-enforceable portions of Permit Attachment 4, unit-specific contingency documentation, and/or Attachment 4A, the changes are not required to be documented through a dangerous waste permit modification under Washington Administration Code 173-303-830 or Permit Condition I.C.3. The Permittee shall provide a copy of the amended documentation to Washington State Department of Ecology (Ecology) through a formal letter."

The attached information pertains to Table 4A-2, "Building Emergency Directors/Building Wardens for units not in the permit" and Table 4A-3, "Building Emergency Directors/Building Wardens for Central Accumulation Areas and Satellite Accumulation Areas." The U.S. Department of Energy, Hanford Field Office (HFO) and Ecology have previously agreed changes to Tables 4A-2 and 4A-3 are non-enforceable and not subject to permit modification requirements.

The attached changes are based on permittee reviews of Attachment 4A performed during February 2025. Changes affecting Attachment 4A content that emerge after the February 2025 permittee reviews will be addressed in the next Attachment 4A update package.

HFO and Ecology use identifiers to help track non-enforceable permit changes. The identifier for the changes herein is NEC-4A-2025-01.

Individuals may request hard copies if the electronic files cannot be accessed. Requests can be made to Ecology by contacting Ecology's Resource Center at (509) 372-7950.

Ms. Stephanie Schleif

CHANGE CONTROL LOG**

Change Control Logs ensure that changes to this unit are performed in a methodical, controlled, coordinated, and transparent manner. Each unit addendum will have its own change control log with a modification history table. The “**Modification Number**” represents Ecology’s method for tracking the different versions of the permit. This log will serve as an up to date record of modifications and version history of the unit.
