I support Alternative 1 because it provides a balance between the preservation of large, biologically rich and intact tracts of land such as the Arid Lands Ecology Reserve, Wahluke Slope, the River Corridor, the Dune complex near WPPS, Gable Mountain & butte, the McGee Ranch Area, and Yakima Ridge, and encouraging development in a high-density manner to reduce economic & industrial sprawl. I feel very strongly about the preservation status of the lands mentioned above which is the only logical choice if you base the decision on a regional perspective. Grazing and agriculture should not be allowed on the Hanford Site, as there is enough land allocated to these activities within the State of Washington. I also support the preservation status of lands west of the 200 W area, which contain mature sagebrush.
