Class of Change

 I - Signatories (Section 13.0) II - Project Manager III - Unit Manager

Change Title

Redefinition of 100-F Area Operable Units

Description/Justification of Change

There are currently two operable units (OUs) in the 100-F Area: 100-FR-1 (source and groundwater) and 100-FR-2 (source). Milestone M-12-13 (Submit 100-FR-1 OU Work Plan) has been completed as of April 1991. The 100-FR-2 OU milestone for submittal of a Work Plan has not been established.

This change request would reorganize the 100-F Area into three OUs; two source OUs, 100-FR-1 and 100-FR-2, and one groundwater OU, 100-FR-3. 100-FR-1 and 100-FR-3 OUs will have a November 29, 1991, date for resubmittal of the Work Plans to the regulators. This change will re-word milestone M-12-13A as follows: "Submit rescoped RI/FS Work Plans for 100-FR-1 and 100-FR-3 OUs..."

This does not increase or decrease the scope of work which has been agreed to.

Impact of Change

1. There would be an increase in the number of OUs in the 100-F Area from two to three, due to the inclusion of 100-FR-3.
2. 100-FR-3 OU Work Plan will be submitted on November 29, 1991. Impacts may be to internal DOE and regulator reviews.

Affected Documents

1. Preliminary OU Designation Project, WHC-EP-0216
2. Hanford Federal Facility Agreement and Consent Order, Action Plan, Appendices C and D.
