Dear Mr. Wilson:

1999 NONCOMPLIANCE REPORT IN FULFILLMENT OF CONDITION I.E.19 OF THE HANFORD FACILITY RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) PERMIT

This letter fulfills Condition I.E.19 of the Dangerous Waste Portion of the Hanford Facility RCRA Permit which requires an annual Noncompliance Report. This condition states, "The permittees shall report to the Department all instances of noncompliance not otherwise required to be reported elsewhere in this Permit at the time the Annual Dangerous Waste Report is submitted." Additionally, noncompliance with permit conditions alleged by Ecology or reported by the permittees through Notices of Violation, Notices of Correction, Inspection Reports, Project Manager Meeting Minutes, or other written correspondence are excluded. The due date for the Annual Dangerous Waste Report to be submitted to the State of Washington Department of Ecology (Ecology) is March 1, 2000.

The Hanford Site had no noncompliances to report other than those already reported, therefore, this letter is the 1999 Noncompliance Report. This information was developed by a permittee team composed of representatives from the U.S. Department of Energy, Richland Operations Office (RL), U.S. Department of Energy, Office of River Protection (ORP), Fluor Hanford, Inc. (FHI), Bechtel Hanford, Inc. (BHI), CH2M HILL Hanford Group, Inc. (CHG), and Pacific Northwest National Laboratory (PNNL). This report covers the period from January 1, 1999, through December 31, 1999.

FEB 28 2000

Mr. M. A. Wilson
00-OSS-210
