Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The November 17, 1993 and December 15, 1993 meeting minutes not signed since this meeting was held via telephone conference call.

RL (R. N. Krekel)/WHC (F. A. Ruck) asked that Ecology (S. E. McKinney) sign the November 1993, December 1993, and January 1994 meeting minutes. The copies of the minutes for signature will be mailed over to Lacey. Ecology could then sign them and mail them back to RL. Ecology indicated that this was acceptable.

2. Status Action Items

- No open action items.

3. Status Closure Activities

- **Discussion of Lithium Toxicity.**

WHC (J. G. Adler) provided an update on the lithium toxicity issue. The main points are that more data on lithium toxicity is needed and that the statement of work for a toxicology study is being written. Ecology (S. E. McKinney) reiterated that need for the study to address the levels for no health effects in humans and to identify the levels for health effects in the environment (i.e., the levels that affect plants).

4. New Business

- **Status of New Unit Manager**

Ecology (S. E. McKinney) stated that the Ecology Unit Manager responsibility for the 105-DR Large Sodium Fire Facility Closure Plan would be transferred from S. E. McKinney in the Lacey Office to an as yet undetermined person in the Kennewick Office. Ecology recommended that RL and WHC (F. A. Ruck) raise this issue with the Ecology Kennewick Office very soon. RL/WHC indicated that a meeting had already been scheduled with the Ecology Kennewick Office Manager for Friday, January 14, 1994.
