Re: Department of Ecology (Ecology) Approval of the United States Department of Energy-Office of River Protection (USDOE-ORP) Request for a 30-Day Extension for the Allowable Accumulation Period of CON-19-344-02, 241-A-103C saltwell screen and CON-19-345-01, 241-AX-101D Pump

Dear Brian T. Vance and John R. Eschenberg:

Ecology reviewed your email received on April 9, 2020, requesting an extension for the allowable accumulation period of Container CON-19-344-02, 241-A-103C saltwell screen, and Container CON-19-345-01, 241-AX-101D Pump. Your extension request described unforeseen, temporary, and uncontrollable circumstances due to the associated COVID-19 pandemic causing response actions to temporarily remove resources for transporting dangerous waste from the 200 East RMA 190 location to an offsite treatment, storage, and disposal facility. Per Washington Administrative Code (WAC) 173-303-200(2)(a)(i), Ecology grants your request for a 30-day extension to the 90-day accumulation period for the two items listed below. The 30-day extension expires on the following dates:

- Container CON-19-344-02, 241-A-103C Saltwell Screen-May 29, 2020
- Container CON-19-345-01, 241-AX-101D Pump-June 6, 2020

If you have any questions, please contact me at kathy.conaway@ecy.wa.gov or (509) 492-1610 Cell.

Sincerely,

Digitally signed by Conaway,
Kathy (ECY)
