Mr. Roger F. Stanley, Project Manager
State of Washington
Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504-8711

Dear Messrs. Day and Stanley:

PROPOSED MODIFICATION TO UNIT MANAGER'S LISTING AND OTHER ASSIGNED AREAS OF RESPONSIBILITY

In response to action item # PM-9, from the August 8-9, 1989, Hanford Federal Facility Agreement and Consent Order (Agreement) Project Managers Meeting, enclosed is the proposed modification to the Unit Manager's Listing. The list has been limited to TSD groups and operable units, and first names have been added. Also enclosed is a separate listing for other areas of responsibility. This listing could cover 1) additional Agreement Scope, 2) issue areas or 3) other areas requiring action and coordination between the parties. At this time, I have only included the additional Agreement scope which is on the currently issued Unit Manager's List. I have also added one item (Data Management) as an example of another area requiring action and coordination between the parties. At the next project managers meeting we should be prepared to discuss the following:

1. Any changes in responsibility to the current lists.
2. Additional TSD groups or operable units that need to be assigned unit managers.
3. Issues (e.g., listed waste, purge water) that warrant assigning a point of contact within each party.
4. Other areas requiring action and coordination between the parties.

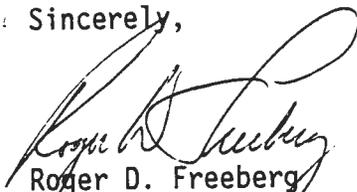

Messrs. Day and Stanley
