

CH2M HILL Plateau Remediation Company

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

January 27, 2020

Dear Prospective Offeror:

Request for Proposal No: 335722

CH2M HILL Plateau Remediation Company (CHPRC) is interested in receiving proposals for Aging Structures Stabilization in support of CHPRC, under Prime Contract DE-AC06-08RL14788 with the U.S. Department of Energy.

This RFP contains numerous technical documents. These documents will be available in a secure location. In order to obtain access to the documents, the potential Offeror **must sign** the Nondisclosure Agreement attached to this RFP (RFP Section B, Attachment 2), and return via email to the Contract Specialist, Steven_B_Puntenney@rl.gov. Upon receipt, the potential Offeror will be provided access to the technical documents. Please note you must sign and return the Nondisclosure Agreement or you will not have access to the necessary documents to respond to this RFP.

Please note that this procurement action will utilize the Supply Chain Management Center (SCMC) eSourcing Tool for receiving proposals. The process is further described in the attached Request for Proposal (RFP).

Information regarding the product or services required and instructions for the preparation and submission of proposals are contained in the attached Request for Proposal (RFP).

The anticipated schedule for this RFP activity is as follows:

Notification of Intent to Propose Due:	January 30, 2020
Bidders Conference/Site Visit:	February 4, 2020
Questions Due:	February 11, 2020
eSource Event:	February 20, 2020
Proposals Due:	February 20, 2020
Anticipated Contract Award:	March 26, 2020

Sincerely,

S. Bradley Puntenney
Contract Specialist
CHPRC Procurement

CH2M HILL Plateau Remediation Company

AGING STRUCTURES STABILIZATION

SECTION A – REQUEST FOR PROPOSAL

1.0 INTRODUCTION

CH2M HILL Plateau Remediation Company (CHPRC) acting under its contract with the Department of Energy, requests you to submit a proposal for a Firm Fixed Unit Rate type of contract to provide Aging Structure Stabilization. This Section A describes the basis of award, proposal submittal requirements, proposal instructions, and notices to Offerors. Section B contains Representations and Certifications and other documents, which Offerors are to complete, sign and return with their proposal. Section B Attachment 7 is the Draft Contract, which is in an accompanying file. It contains:

- Part I – Statement of Work
- Part II – Financial Terms
- Part III – General Terms and Attachments
- Part IV – Special Provisions

CHPRC may determine that any proposal not submitted in accordance with this Request for Proposal (RFP) is non-responsive and reject the proposal.

This Solicitation requires all Contractors submitting proposals to access the Supply Chain Management Center (SCMC) eSourcing Tool to input pricing. Upon receipt of Contractor's notification of intent to propose CHPRC will provide the Contractor an email notification with a link to the SCMC eSourcing event including access instructions. Contractor will be afforded the opportunity to preview the application and place pricing information prior to the commencement of an event. This preview phase is called the pre-bid period. At the conclusion of the pre-bid period, the eSourcing event will commence and continue until its expiration. Events typically last 15-30 minutes.

The eSourcing tool is being used to collect pricing data for this action. This event IS NOT a reverse auction. Offerors are to input their best proposed price at the time of submission. Offerors will not see their ranking and will not be afforded the opportunity to decrement their bids.

This solicitation and resultant award are considered a negotiated procurement which means that, submitting the lowest priced proposal does not guarantee award. CHPRC must complete a full evaluation of the submitted proposals prior to making an award determination. CHPRC reserves the right to conduct negotiations prior to award or to award a contract based upon initial proposals received; without further discussions. In the unlikely event of a discrepancy among any of the Offeror's documents or information submitted through the eSourcing website, the information received and confirmed by CHPRC shall govern. However, Offerors are required to submit proposals consistent with the price proposed during the eSourcing event and may not intentionally submit a revised proposal after completion of the event.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

NOTE: Following the eSource event, Offerors are required to submit their proposals (see 3.0 Proposal Preparations Instructions below) in electronic form (pdf) electronically within three hours of the completion of the eSource Event (see 3.0 Proposal Preparations Instructions below).

2.0 BASIS OF AWARD

CHPRC intends to award a contract as a result of this RFP to the responsible offeror whose offer conforms to the requirements of this solicitation and is determined to be the most advantageous technical and price proposal.

The basis of award is an informal evaluation selection of an Offeror who is determined to be responsible, responsive, and the best source to accomplish the objectives of the RFP. Refer to Section 4.0 for a description of the evaluation criteria.

2.1 Acceptance or Rejection of Proposals

CHPRC reserves the right to accept or reject any proposal with or without prior discussion with the Offeror. CHPRC may:

- Award a contract on the basis of proposals received without discussions with Offerors (therefore, initial proposals should be submitted with the most favorable technical and price terms);
- Select one or more Offerors to negotiate with;
- Reject any or all proposals received;
- Issue a request for new proposals; or
- Cancel the RFP without awarding a contract.

2.2 Responsiveness Determination

CHPRC will determine if the offeror is responsive to CHPRC requirements and eligible for award. This evaluation may include (but is not limited to) information gathered from other sources, including safety performance, financial stability and past performance for CHPRC or other customers. The determination may be made at any time by CHPRC without additional questions or revision. CHPRC may waive minor informalities and irregularities in offers received.

2.3 Proposal Costs

CHPRC is under no obligation to pay proposal preparation costs.

2.4 Award Notification

CHPRC will notify all of the Offerors after CHPRC selects an Offeror for award. There will be no public opening of proposals.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

3.0 PROPOSAL PREPARATION INSTRUCTIONS

Organize the proposal as described in the following sections.

Proposal must clearly and convincingly demonstrate that the offeror has a thorough understanding of and will be able to perform the proposed contract successfully. For technical work, describe the proposed technical approach including assumptions and supporting detail. Unsupported, unclear, or inconsistent statements about offeror's proposed performance and compliance with all contract requirements may be determined as non-responsive.

Do not submit generic brochures or other marketing materials which do not specifically relate to the proposal.

3.1 Proposal Content

Offeror's proposal must contain information sufficient to demonstrate an understanding of the requirements and Offeror's ability to perform successfully as proposed. Offerors who submit proposals which are unclear or incomplete may be judged non-responsive and dropped from further consideration for this award. Simply repeating the statement of work requirements or merely offering to perform the work may result in a lower evaluation or the offer being judged non-responsive to the requirements and dropped from further consideration

Proposals shall be organized in the manner listed in Sections 3.2 through 3.5 below. Each volume of the proposal shall be separate and complete. Omit all cost or pricing details from the technical proposal. Where estimated labor hours will provide clarity, propose them as hours only with no indication of price in the technical proposal.

The following documents make up a complete proposal package:

3.2 Volume I – Technical Proposal

Volume I shall consist of the Offeror's discussion that addresses the qualification standards and technical evaluation criteria, the Offeror's capabilities, and what the Offeror will do to satisfy the requirements of the solicitation. The Offeror shall provide 1 electronic copy of this volume.

3.3 Volume II – Cost/Price and Contractual Proposal

Volume II shall consist of the following:

1. Price Proposal Worksheet - RFP Section B Attachment 3. The Offeror must use and complete the provided price proposal worksheet template as instructed and

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

formatted. All pricing assumptions shall be clearly stated in Offeror's Volume II Cost/Price Proposal to allow a reviewer to assess the potential cost risks associated with the proposal. *Note: Although CHPRC intends to fully fund the contract at the time of award, there is the potential for funding limitations, refer to Limitation of Funds clause contained in Part II, Section 1.1 of the Draft Contract (RFP Section B Attachment 7).*

2. Conflict of Interest Disclosure - RFP Section B Attachment 4. The Offeror shall complete and return the Conflict of Interest Disclosure Statement form.
3. Representations and Certifications – RFP Section B Attachment 5. The Offeror shall complete sections 21 and 22 including the NAICS code and size standard identified in section 6.3 of this RFP and return Attachment 5, Representations and Certifications documentation.
4. Certificate of Insurance – Offeror must provide a Certificate of Insurance that demonstrates the Offeror's ability to meet the insurance requirements established in Special Provisions SP-5 – On-Site Services.
5. Subcontracting Plan – Unless otherwise exempt, Offeror must submit a subcontracting plan in accordance with the requirements established in section 6.8 of this RFP.
6. Evidence of Bondability – CHPRC may or may not require performance and/or payment bonds for work completed under the resulting contract. As such, Offeror must provide evidence (i.e. letter from a surety) of their ability to obtain performance and payment bonds, should they be required by CHPRC.

3.4 Volume III – Quality Assurance Manual

Volume III shall consist of one copy of the Offeror's Quality Assurance Manual as required by SOW Section 01400. If the Offeror's Quality Assurance Manual has been previously submitted and approved by CHPRC, the Offeror shall submit a statement indicating prior approval and that no changes have occurred. In the event that changes have occurred, submit a statement detailing the changes.

3.5 Volume IV – Contractor's Safety Prequalification

Volume IV shall consist of one copy of the completed CHPRC Contractor OS&IH Prequalification Form (RFP Section B, Attachment 6). If the Offeror has a CHPRC Contractor OS&IH Prequalification Form that has previously been accepted and approved by CHPRC, then the Offeror shall submit a statement indicating prior approval and that no changes have occurred. In the event that changes have occurred, Offeror shall submit a statement detailing the changes and provide a completed and updated form.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

CHPRC Project OS&IH performs safety prequalification on all contractors (including lower-tier contractors) whose work scope is identified as Construction, Well Drilling, or Demolition; and as otherwise determined by Procurement Management, BTR, and OS&IH based upon the hazardous nature or complexity of the planned work task.

Safety Pre-Qualification (Contact Contract Specialist to determine if this has been previously submitted)

This criterion refers to the Offeror's safety pre-qualification documentation.

Subcontractor Safety Pre-Qualification information shall include:

- Completed CHPRC Contractor OS&IH Prequalification Form (RFP Section B Attachment 6) for Offeror (and any subcontractors or teaming partners) for the past three (3) years
- Interstate Experience Modification Rate (EMR) <1 on the provider's letterhead
- OSHA Form 300 Logs signed and dated by company representative
- The Table of Contents from the contractor's safety and health manual
- Copies of transmittal letters including descriptions of the outcome and number any citations from each Federal OSHA, Department of Labor and Industries (WA), or other OSHA state-plan inspection

The identification and summary of occupationally-related fatalities in the past 5 years that involve personnel or subcontractors; including the cause and corrective actions implemented.

3.6 Offeror's Acceptance

The contract, if any, resulting from this RFP will be substantially the same as the draft contract that is contained in the accompanying file. Unless otherwise noted by the Offeror in its proposal, Offeror's submission of a proposal signifies the Offeror's unqualified acceptance of all of the technical requirements and other terms and conditions that are contained and referenced in this RFP and the accompanying draft contract file. Interpretations established by the Offeror to any part of this RFP may be considered an exception, and may render the proposal being considered non-responsive and dropped from evaluation and award considerations.

3.7 Exceptions to Technical Requirements and Other Terms and Conditions

The Offeror shall describe any exceptions to the technical requirements and other terms and conditions of the sample contract on which the Offeror's proposal is based. Offerors are notified that CHPRC considers the Offeror's compliance with the technical requirements and terms and conditions of the accompanying draft contract to be essential. In case of doubt, Offeror should request clarification from CHPRC. If the Offeror takes

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

any exceptions to the requirements of the RFP, the pricing shall be based on the requirements of the RFP and the exception(s) priced as alternates. If the Offeror's proposal is based only on the proposed exceptions, CHPRC may determine that the proposal is non-responsive.

3.8 Proposal Validity Period

A proposal shall remain firm for 90 days after the proposal due date.

4.0 QUALIFICATION STANDARDS AND EVALUATION CRITERIA

Information such as experience, proposed work plans, past performance, key personnel, available resources and equipment and any other information available may be used by CHPRC in evaluating the offeror's capabilities, responsibility and responsiveness to the solicitation.

CHPRC will first evaluate each Offeror's proposal to determine whether the information provided meets any qualification standards. The Offeror's proposal must meet the qualification standards to be considered for further evaluation. Those proposals considered as meeting the qualification standards will be evaluated against the evaluation criteria. The evaluation criteria are composed of the following technical/business and cost/price factors: technical approach, detailed Offeror capabilities and related past performance factors are more important than cost or price. Price will be a significant evaluation factor.

CHPRC will use the evaluation criteria to determine the Offeror's understanding of the work, the Offeror's qualifications to perform the work, and the acceptability of the Offeror's proposed technical and management approach.

The Offeror shall address each of the qualification standards and evaluation criteria and state how the Offeror specifically meets each one.

4.1 Qualification Standards

CHPRC has established the following qualification standards that must be fully met in order for an Offeror to be considered for award. It is CHPRC's policy to offer the opportunity to compete for its procurements as is reasonably and economically feasible. However, in view of the distinctive characteristics of CHPRC's programs, those potential Offerors who do not already possess the capability to meet the qualifications standards are encouraged not to incur proposal and other expenses involved in competitive submissions.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

GO/NO GO

A. Standard No. 1 (Include in Volume I – Technical Proposal)

Evidence that Offeror (or any teaming partners or sub-tiers) is signatory to the Hanford Site Stabilization Agreement (HSSA)

(<https://www.hanfordvitplant.com/hanford-site-stabilization-agreement>).

B. Standard No. 2 (Include in Volume I – Technical Proposal)

Offerors must have demonstrated government (DOE or DOD) experience and relevant project performance experience in a high hazard environment within the last five (5) years.

Those Offerors determined by CHPRC to meet the above requirement shall be evaluated against the criteria outlined in the Technical/Business Evaluation Criteria section.

4.2 Technical/Business Evaluation Criteria

The following evaluation criteria, which are listed in order of significance, with Technical Comprehension and Approach having the highest significance. The technical and business criteria will be used along with cost or price in determining which Offeror will be selected (if at all) for an award.

A. Technical Comprehension and Approach

This criterion refers to the Offeror's technical comprehension and approach for accomplishing the work. This criterion will be evaluated based upon the Offeror's submitted information which includes the information demonstrating that all requirements of the Statement of Work will be met. The proposed approach should specifically include a description and justification for any "Exceptions" taken to the RFP that could impact schedule risks. Offeror is to provide detailed technical discussion which addresses the following:

1. Logistics and Supply Chain Management –
 - On-site mobilization and set-up and ability to stay within the designated footprint/area for the project.
 - Delivery and transportation logistics to meet the required grout placement needs including use of work shift options, approach to secure drivers/teamsters and trucks required for grout delivery and placement, type of grout pumping and distribution equipment to be used.
 - Anticipated suppliers of grout and how required production rates for grout delivery will be obtained.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

2. Grout Supply –
 - Anticipated grout supply source/approach.
 - Local (Tri-Cities, Yakima, etc.) off-site batch plant delivery and grout placement capabilities (if applicable).
3. Traffic Control Plan –
 - Management of traffic including anticipated route, use work shifts and flagger(s), approach to minimize backing of trucks, control speeding, etc.
4. Crew/Bench Strength –
 - Anticipated crew make up (labor categories and quantities) to support the work activities required specific to each of the three (3) tasks identified in the SOW.
 - Access to and availability of currently trained crew/personnel who can start work on-site immediately.
 - Depending on means a methods, proposed Critical Lift Designated Leader (DL) in accordance with DOE/RL 92-36 – Hanford Site Hoisting and Rigging Manual if required.
5. Lower-Tier Subcontractors –
 - Proposed lower-tier subcontractors required to accomplish of the requirements of the SOW including construction, grout supply, mock-up development and execution, grout delivery and conveyance, inspection, testing, etc.
 - Lower-tier subcontractor capabilities and qualifications.
 - Proportions of work being performed by the Contractor and the proposed lower-tier subcontractors.
6. Chemical Management –
 - Chemical management plan for chemicals stored on-site.
 - Anticipated chemicals/add mixtures to be on-site and volume/quantity.
7. Management Approach –
 - Ability to plan, organize, manage and integrate resources and activities will ensure successful accomplishment of the requirements of the RFP.
 - Management objectives and techniques that demonstrate how the management, technical, and quality requirements will be met.
 - Evidence of sufficient resources Offeror’s capabilities to efficiently and effectively allocate and direct these resources.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

- Management controls that will be used to ensure timely and quality performance of subcontractors.

B. Schedule

The Offeror shall provide a detailed schedule showing activities leading to contract completion. The schedule shall include appropriate complexity, adequate durations and activity ties that are realistic and achievable. At minimum, Offeror shall provide a basis for key critical activity durations. Elements to be evaluated are the following:

1. The desired start of grout placement in 216-Z-2 is **July 20, 2020**. Favorable consideration will be given to a schedule that demonstrates grout placement prior to this date. Should this date be unachievable, Offeror is to propose the best possible grout placement start date.
2. Quality of Schedule
 - Schedule shows reasonable milestones, appropriate logic ties, and a logical critical path.

C. Organizational Model and Key Personnel

The Offeror shall provide their proposed organizational model, including personnel experience and qualifications. Elements to be evaluated include the following:

1. A discussion how the Offeror proposes to work with CHPRC to safely and successfully complete the project.
 - Describe the organization and how the Offeror proposes to integrate with the CHPRC project.
 - Provide an integrated project organizational chart that reflects the roles and responsibilities of the Offeror team and identifies key interface points with CHPRC personnel. The chart shall denote if the Offeror will be staffed by personnel already employed by the company or if a hiring action is required to fill the position.
2. Resumes of key personnel that reflect education, training, and relevant and recent experience for the following and any other key roles/categories the Offeror intends to utilize:
 - Field Superintendent (must meet minimum qualifications per SOW Section 01150 Paragraph 1.3.1.3)
 - Safety/IH Officer (must meet minimum qualifications per SOW Section 01150 Paragraph 1.3.1.4)
 - Project Manager
 - Construction Manager
 - Quality Assurance (QA) Representative

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

- On-site Batch Plant Operator (if applicable)

D. Quality Assurance

The Offeror shall provide a Quality Assurance Plan (QAP) to be used during the performance of this Contract. The Offeror shall also address quality assurance management actions specific to quality control of grout for ensured continuity across tunnel and throughout grouting operations. This explanation shall include the planned actions to be taken by the Contractor and its lower-tier subcontractors both on-site and off-site.

E. Past Performance

The Offeror must have demonstrated government (DOE or DOD) experience and relevant project performance experience in a high hazard environment within the last five (5) years. The Offer shall provide a minimum of three (3) references, which shall include the following current and up-to-date information for each specific reference.

- Client Name and Address
- Client Technical Point of Contact and phone number
- Contract Number
- Brief Description of Work Scope
- Contract Type
- Period of Performance
- Original Contract Value
- Final Contract Value and an explanation if different from the original Contract value.
- Comparison of project completion end date to planned baseline end date (schedule comparison).
- Key lessons learned regarding technical approach, project management, supervision/oversight, safety, QA, cost, and/or schedule.

Note: Information gained elsewhere by the Buyer can also be used as part of the evaluation.

4.3 Cost/Price Criterion

CHPRC will analyze the Offeror's pricing and rank the price among the prices of other Offerors. It is important to note that CHPRC will not make an award at a significantly higher overall price in order to achieve slightly superior technical or management features. As proposals become more equal in their technical merit, the evaluated price becomes more important.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

5.0 PROPOSAL SUBMITTAL DIRECTIONS

5.1 Notification of Intent to Propose

CHPRC requests that a prospective Offeror notify CHPRC in writing by 4:00 p.m. on January 30, 2020, indicating that the Offeror intends to submit a proposal in response to this RFP. The Offeror may transmit the notification to the Contract Specialist via e-mail or fax.

5.2 Bidders Conference/Site Visit

There will be a pre-proposal bidders' conference and site visit conducted on February 4, 2020 promptly at 12:30 p.m. at MO2234 in the 200 East area of the Hanford Site. The site tour will begin with a visit to MO287, where the PFP shift office is located and where the overhead cameras of the work area can be viewed. Then the group will access the RBA where the 217Z maintenance shed and 216-Z-9 can be viewed.

Any Offeror desiring to attend the bidders' conference and site tour will need to obtain a temporary visitor's badge prior to the 12:30 p.m. meeting. Access to the Hanford Site will only be available to those who have a badge prior to the meeting. A map to the Central Badging office is available at http://chprc.hanford.gov/files.cfm/map_to_badge_new.pdf. In order to obtain a temporary site visitors badge, individuals will be required to provide proof of identification. A list of acceptable forms of identification is available at https://chprc.hanford.gov/files.cfm/Hanford_Badge_Real_ID_fact_sheet1.pdf

Please provide the Contract Specialist with the following information for the representative(s) from your company who will be attending the site visit **by 10:00 a.m. on February 3, 2020.**

- Employer
- Citizenship (*Please note that only U.S. citizens are approved to attend*)
- Name-Last, First, Middle Initial
- Date of Birth

Contractor representatives wishing to enter RBA portion of walk down will need to have HGET/GERT and have reviewed and signed roster for PFP HASP (Attachment 7).

5.3 Questions and Comments Regarding the RFP

The Offeror shall submit, in writing to the Contract Specialist no later than 4:00 p.m. on February 11, 2020, any comments or questions regarding the RFP that the Offeror would like answered or discussed during the bidders conference/site visit.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

The Offeror shall transmit questions and comments via e-mail. CHPRC will only formally answer questions submitted in writing. CHPRC will provide a copy of the questions and answers to all Offerors in the form of an Addendum.

If the RFP requires an amendment to resolve issues regarding the RFP, CHPRC will issue an amendment to those Offerors who have not declined to participate in time for them to consider the amendment(s) before finalizing and submitting their proposals.

5.4 eSourcing Event

The eSource event will take place at 1:30 p.m. on February 20, 2020. This event will be a One Time Price Submittal.

5.5 Deadline

Proposals are due on February 20, 2020 within three (3) hours of the completion of the eSource Event. CHPRC reserves the right to reject any proposal received after the deadline.

5.6 Submittal Address

The Offeror's proposal shall be submitted electronically, via email, to the Contract Specialist. Hard copies of the proposal will not be accepted.

The Contract Specialist's telephone number is (509) 376-5576 and the email address is Steven_B_Puntenney@rl.gov. The Offeror may contact the Contract Specialist to verify that the Contract Specialist received the proposal.

5.7 Withdrawal

Proposals may be withdrawn by written notice received by the Contract Specialist at any time prior to award.

5.8 RFP Amendments/Addenda

If this RFP is amended, unless otherwise stated, all terms and conditions that are not modified will remain unchanged. The Offeror shall acknowledge receipt of all amendments/addenda by stating in the proposal that the Offeror has received them and has considered them in formulating the proposal.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

6.0 NOTICES TO OFFERORS

6.1 Anticipated Award Date

The anticipated award date for this RFP is March 23, 2020; however, this date is subject to change.

6.2 Precedence of Requirements

In the event of a conflict among the provisions, the RFP instructions, the RFP correspondence, other documents and the resulting contract, the terms of the contract shall govern.

6.3 North American Industry Classification System (NAICS) Code and Size Standard

CHPRC has determined that North American Industry Classification System (NAICS) Code 238110, *Poured Concrete Foundation and Structure Contractors*, applies to this acquisition. Therefore, the size standard for determining whether an Offeror is a small business in regard to this acquisition is \$15,000,000.

6.4 Identification of Proprietary Data

If the Offeror submits any data as part of their Proposal, which is considered by the Offeror to be “proprietary data”, the document transmitting the data or which contains the data, shall be boldly marked indicating that the data included are considered to be proprietary. To the extent that the restrictive marking prevents CHPRC from distributing the documents for evaluation or use, the marking may render the proposal non-responsive.

6.5 Certified Cost or Pricing Data

The Offeror is not required to provide certified cost or pricing data. However, CHPRC may require the Offeror to provide certified and/or non-certified cost or pricing data prior to award if CHPRC cannot determine that the acquisition is exempt from the requirements of PL 87-653 (10 USC Sec. 2306a).

6.6 Financial Capability Determination Information

CHPRC reserves the right, prior to award, to require the Offeror to submit information that CHPRC will use to make a determination whether the Offeror has the financial capability to successfully perform the contemplated contract in accordance with the contract terms. Such information may include, but not be limited to: annual reports; lines of credit with financial institutions and suppliers; SEC Form 10K, and any other information that may be required by CHPRC.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

6.7 Subcontracting

Contractor may **not** subcontract any significant portion of this contract without first obtaining concurrence of CHPRC to the proposed subcontract scope and subcontractor(s).

Contractor is responsible to incorporate and flow down all appropriate provisions and requirements of this contract to all lower-tier contractors and subcontractors.

Contractor shall furnish CHPRC a list of all proposed lower-tier subcontractors who will be performing work on the Hanford site and those proposed subcontractors who will be performing a significant portion of the off-site work. The list must be furnished prior to award and updated with changes during contract performance. Use the Subcontracting form and instructions located on this web page:

<http://chprc.hanford.gov/page.cfm/SubmittalsFormsDocs>

CHPRC reserves the right to:

- Reject any proposed subcontract or subcontractor as incomplete or unsuitable
- Require submittal of the proposed subcontract before contract award or prior to performance of any work on site
- Require the replacement, at contractor's expense, of any subcontractor who fails to adhere to all of the applicable provisions and requirements of this contract.

6.8 Subcontracting Plan

Unless exempted below, contractor shall utilize small business concerns to the maximum extent practical as required in Federal Acquisition Regulation (FAR) part 19.702 when subcontracting any part of this contract. Contractor shall submit and utilize a subcontracting plan in accordance with Special Provision SP-11 Subcontracting Plan Requirements, available for downloading from CHPRC's web site at:

<http://chprc.hanford.gov/page.cfm/ContractProvisions>

The subcontracting plan must be submitted and accepted by CHPRC prior to award. The subcontracting plan must separately address subcontracting opportunities with Small, Small Disadvantaged, HUB Zone, Service Disabled-Veteran and Women Owned Businesses for the base year and all option years of the contract.

- A. Semi-annual and annual summary reports must be submitted from the inception of the contract through the complete contract term in the Electronic Subcontract Reporting System (ESRS) system until the final report is submitted. Reports must be filed in the ESRS referencing, where applicable, CHPRC's prime contract number DE-AC06-08RL14788 and DUNS number 80563128. Contact the CH2M HILL Plateau Remediation Company Small Business Advocate for assistance in reporting.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

Good-faith compliance with the approved plan is a requirement of acceptable contract performance unless CHPRC granted an exemption prior to award for one of the following circumstances:

1. Contractor is a Small Business as defined in accordance with 13 Code of Federal Regulations (CFR), part 121 and FAR Part 19, 19.001.
2. Subcontracting opportunities are not offered with respect to the proposed Contract.
3. The proposed Contract is not expected to exceed \$700,000 or \$1,500,000 (if for construction of a public facility).
4. The proposed Contract will be performed entirely outside of the U.S., its territories and possessions, the District of Columbia and the Commonwealth of Puerto Rico.

6.9 Required Price Support Information

The seller is required to submit information sufficient to determine that the prices or costs being charged are reasonable, fair and realistic. Such information may include pricing, sales, or cost information that is pertinent to establishing the pricing or costs being charged.

Certified cost or pricing data need not be submitted.

For example:

1. For items where pricing is controlled, by law or regulation, by periodic rulings, reviews, or similar actions of a governmental body; identify and submit the controlling document establishing the price offered.
2. For Commercial items; submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price of this acquisition. Such information may include:
 - a. For catalog items; a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller; Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;
 - b. For market-priced items; the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;
 - c. For items included on an active Federal Supply Service Multiple Award Schedule contract; a copy of the appropriate pages for the offered items, Schedule cover page, terms and conditions, unless already on file with the contracting office.

REQUEST FOR PROPOSAL NO: 335722

AGING STRUCTURES STABILIZATION

3. Additional supporting information, to the extent necessary to determine whether the price is fair and reasonable.

The seller grants CHPRC or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify the reasonableness of the price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the seller's determination of the prices to be offered in the catalog or marketplace.

6.10 Buy American Act

In accordance with the Buy American Act (BAA, FAR part 25) domestic end products as defined in the BAA shall be afforded an evaluation preference in this action. Products of foreign origin may not be supplied unless evaluated and agreed to by CHPRC prior to contract award. Contractor certifies that all other products, supplied on this contract are Domestic products as defined in the BAA.
