Mr. Douglas R. Sherwood  
Hanford Project Manager  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, Washington 99352-0539

Dear Messrs. Alexander and Sherwood:

618-4 BURIAL GROUND EXCAVATION REPORT, BHI-01200, REV. 0

Transmittal of the subject report satisfies the requirements of the Hanford Federal Facility Agreement and Consent Order milestone M-16-03C. The purpose of the 300-FF-1 Operable Unit 618-4 Burial Ground excavation report is to document the planning, processes, events, cost, and lessons learned associated with excavation activities at the burial ground. The information will be useful in assessing costs and future activities for other burial grounds at the Hanford Site. Although excavation of the 618-4 Burial Ground has not been completed, the Tri-Parties agreed that sufficient information was gathered through the end of April 1998 to prepare and issue the excavation report on schedule.

If you have any questions, please contact Mr. Robert G. McLeod at 372-0096.

Sincerely,

Robert G. McLeod, Project Manager  
Remedial Actions Project

George H. Sanders, Administrator  
Hanford Tri-Party Agreement
