Mr. Steve Wisness, Acting Program Manager  
Office of Environmental Assurance  
Permits, and Policy  
Department of Energy  
Richland Field Office  
P. O. Box 550 MSIN A5-15  
Richland, Washington 99352

Dear Mr. Wisness:

A review of the Notice of Construction for Ventilation Upgrades in the 241-AY and 241-AZ Tank Farms has been completed by my staff. It was complete and well prepared. Approval for this project is granted for the projects, (W-151 and W-030) as defined in the Notice of Construction.

Please note that all applicable standards must be adhered to. It is understood that the estimated dose to the maximally exposed individual is .001 mrem/year with abated technology.

If you have any questions, please do not hesitate to call me or Randy Acselrod of my staff on (206) 586-8950.

Sincerely,

Allen W. Conklin, Head  
Air Emissions and Defense Waste Section  
Division of Radiation Protection
