- ◆ 200 East Area Chemical Drain Field
- ◆ 100 Area Septic System
- ◆ 183-V Backwash Discharge Pond
- ◆ 100-V Sewage Lagoon

If you would like material in an alternative format (large print, Braille, cassette tape, or computer disk), please contact Michelle Davis, Ecology (360) 407-7126 (Voice), or (360) 407-7155 (TDD); Hanford Cleanup toll-free 1-800-321-2008

Ecology has received permit applications from the U.S. Department of Energy for the discharge to the soil of treated wastewater. Ecology proposes to proceed with developing and issuing the permits. Draft permits are scheduled for public review and comment later in 1995.

Ecology seeks to learn issues of public concern about these applications. Interested persons are encouraged to submit comments at this time for the draft fact sheets to be issued later in 1995 with the draft permits. Any person, upon request, will receive subsequent mailings regarding these permits.

Information Available: The permit applications and related material may be read and copied in the following Hanford Information Repository:

USDOE Public Reading Room, Washington State University, Tri-Cities, Room 130 West, 100 Sprout Road, Richland.

Inquiries, requests for information and comments should be directed to:

Greta Davis, Ecology
 1315 W. 4th
 Kennewick, WA, 99336-6018;
 (509) 736-3025.
