Mr. Douglas R. Sherwood  
Hanford Project Manager  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, Washington 99352-0539

RECEIVED  
JAN 14 2000  
EDMC

Dear Mr. Sherwood:

COMPLETION OF MILESTONE M-13-22, TRANSMITTAL OF 200-CW-5 OPERABLE UNIT REMEDIAL INVESTIGATION/FEASIBILITY STUDY (RI/FS) WORK PLAN, DRAFT A, DOE/RL-99-66

Attached are five copies of the subject document for your review and approval.

This work plan is the third in a series which follow the streamlined approach for characterization and remediation of the 200 Areas as described in "200 Areas Remedial Investigation/Feasibility Study Implementation Plan - Environmental Restoration Program," DOE/RL-98-28. The work plan contains the elements of a Comprehensive Environmental Response, Compensation, and Liability Act RI/FS work plan. A sampling and analysis plan and waste control plan accompany the work plan as appendices.

Transmittal of this work plan satisfies the Hanford Federal Facility Agreement and Consent Order Milestone M-13-22 for submittal of the 200-CW-5 Operable Unit Work Plan to the U.S. Environmental Protection Agency by December 31, 1999.

If you want to discuss this matter further or require additional information, please contact Mr. Bryan Foley, Project Manager, at 376-7087.

Sincerely,

George H. Sanders, Administrator  
Office of Regulatory Liaison
