	Closed Out: <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

The release site consisted of contaminated tumbleweeds found on a dirt road near the 241-BX tank farm in 1980. Operations were notified and the roadway was immediately cleaned up.

**Basis for reclassification:**

The contamination was removed in 1980. The site is no longer marked or posted. It is recommended this site be reclassified to No Action.
