Re: Department of Ecology's Review Comments on *Integrated 100 Area Remedial Investigation/Feasibility Study Work Plan*, DOE/RL-2008-46, Draft A, and *Integrated 100 Area Remedial Investigation/Feasibility Study Work Plan Addendum 1: 100-D/H Decision Unit*, DOE/RL-2008-46-Add1, Draft A 0081914
0081919

Dear Mr. McCormick:

The Department of Ecology's (Ecology) review comments on the referenced documents are enclosed. These comments include the errors and omissions that Ecology and the United States Department of Energy discussed on July 6, 2009. These issues include, but are not limited to the following:

- Establish target analytes and the Contaminants of Potential Concern selection process.
- Determine basis to select 44 wells for groundwater sampling.
- Data evaluation for data collected under the Remedial Investigation/Feasibility Study Work Plan.
- Revise the Applicable or Relevant and Appropriate Requirements table as necessary.
- Add tasks to the Work Plan and Addendum.
- Revised Figure 5-2 (enclosed), *Remedial Investigation Waste Site Characterization Decision Process*, found in DOE/RL-2008-46, Draft A.

We look forward to focusing on the major document comments at the upcoming workshops scheduled in August and September 2009.

If there are any questions, contact me at 509-372-7916 or Jacqui Shea at 509-372-7925.

Sincerely,

Mandy Jones
