Mr. Timothy L. Nord
Hanford Project Manager
State of Washington
Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504-8711

Dear Mr. Nord:

TRANSFER OF ENGINEERING CHANGE NOTICE FOR STATE OF WASHINGTON DEPARTMENT OF ECOLOGY REVIEW

Enclosed please find Engineering Change Notices (ECN) 113805 and 113816. Approval of the ECNs by the State of Washington Department of Ecology is required prior to construction of wells planned at the S-10 Ditch and Pond Facility and the Low-Level Burial Grounds (LLBG) in calendar year 1991. These wells are mandated by commitments made in the Hanford Federal Facility Agreement and Consent Order. Please review and approve the ECNs and return to the U.S. Department of Energy, Richland Operations Office as soon as possible.

The first ECN specifies additional monitoring wells locations at the LLBG and the second reflects minor changes in previously proposed well locations for the S-10 Ditch and Pond Facility.

If there are any questions or a need for additional information regarding this submittal, please contact Mr. M. J. Furman, U.S. Department of Energy, Richland Operations Office, on (509) 376-6421 or Mr. K. R. Fecht, Westinghouse Hanford Company, on (509) 376-0940.

Sincerely,

Handwritten signature of Kenneth W. Bracken.

Kenneth W. Bracken, Director
Waste Management Division
Richland Operations Office
