Mr. E. R. Skinnarland
200 Area Section Manager
Nuclear Waste Program
State of Washington
Department of Ecology
1315 W. 4th Avenue
Kennewick, Washington 99336-6018

FEB 3 1999

Dear Mr. Skinnarland:

TRANSMITTAL OF THE 200-CW-1 GABLE/B-POND AND DITCHES COOLING WATER WASTE GROUP DATA QUALITY OBJECTIVES (DQO) SUMMARY REPORT

Attached is a copy of the 200 CW-1 Gable/B-Pond and Ditches Cooling Water Waste Group Remedial Investigation DQO Summary Report, BHI-01239, Rev.0, for your information. This report has incorporated comments from the U.S. Department of Energy, Richland Operations Office and the State of Washington Department of Ecology. The DQO established for 200-CW-1 will be used in the preparation of the 200-CW-1 Remedial Investigation/Feasibility Study Work Plan and its associated sampling and analysis plan, which is currently being prepared.

This report is being distributed to the core projects of the Groundwater/Vadose Zone Integration Project through the respective leads. Through that distribution, each core project has been requested to determine if they have supplementary data needs that should be included in this effort. You will be kept informed of any input received from the core projects. If you have any questions or require additional copies of the report, please contact me on 376-7087.

Sincerely,

B. L. Foley, Project Manager
Groundwater Project
