**Summary of Discussion and Commitments/Agreements****1. Approval of January 31, 1995 200-BP-11 OU RCRA UMM Minutes**

The January 31, 1995 Unit Manager Meeting minutes were approved by Ecology, EPA and DOE-RL. A Unit Managers Meeting was not scheduled for February 1995, and the March 1995 Unit Managers Meeting was canceled.

**2. Status of January 31, 1995 200-BP-11 OU RCRA UMM Action Items**

Action item 01-31-95:1, Ecology will provide RL comments by February 10, 1995, regarding the 200-BP-11 project baseline assumptions which were presented to the regulators on December 21, 1994.

Mr. B. Foley (RL) stated that RL received Ecology's comments. This action item was closed. A new action item was generated for RL to respond to the comments received from Ecology and EPA regarding the 200-BP-11 project baseline assumptions. A copy of the 1995 fiscal year work plan with associated costs and work scope will be attached to RL's comment response.

Ms. J. Wallace (Ecology) referred to one of her comments regarding the baseline assumptions. Ms. Wallace stated that the 200-BP-11 Operable Unit was addressed sufficiently in the baseline assumptions. However, she noted that there are several treatment, storage and disposal (TSDs) facilities located within the 200-BP-11 Operable Unit, and she expressed concern that the baseline assumptions did not delineate funding for the individual TSDs.

Action item 01-31-95:2, RL will inform Ecology (Ms. J. Wallace) when the baseline cost estimates for the 200-BP-11 project will be available. =

Mr. Foley stated that regulators were provided the 200-BP-11 baseline cost estimates. Mr. N. Hepner (Ecology) stated that he received a copy of the baseline cost estimates.

**3. Status 200-BP-11 Operable Unit RFI/CMS and 216-B-3 Main Pond, 216-B-63 Trench, and 216-A-29 Ditch Work/Closure Plan, Draft B, Volume 1**

Mr. Foley stated that the work/closure plan was formally transmitted to Ecology, and he requested that Ecology complete their review and provide comments by June 5, 1995. Mr. Hepner agreed to make an effort to meet

the requested June 5, 1995 date to provide comments, and that he would contact Mr. Foley if an extension of time was needed.

**4. New Business**

Mr. Hepner inquired about funding for completing the work plan. Mr. R. Tranbarger (ERC) responded that the work plan will be completed. Mr. Foley added that RL plans to complete all the 200-BP-11 project activities that are ongoing. Ms. Wallace pointed out that the closure plan was coordinated with activities occurring in the 200-BP-11 operable unit, and she expressed concern that if funding is removed from the operable unit activities, that certification of closure may be impacted.

**5. Set Next Meeting Date**

Ecology, RL and ERC agreed to defer scheduling the next Unit Managers Meeting.
