Dear Messrs. Day and Jansen:

325/3100 HAZARDOUS WASTE TREATMENT UNIT DANGEROUS WASTE PERMIT APPLICATION,
REVISION 0

T 3-4

This letter transmits the 325/3100 Hazardous Waste Treatment Unit Dangerous Waste Permit Application, Revision 0. The permit application is submitted in accordance with the Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement), Milestone M-20-20, as amended by change packages M-20-91-3 and M-20-92-4, which set a June 29, 1992 date for the submittal of this application. A revised Part A permit application, reflecting new EPA waste codes and related changes, has been submitted as part of the permit application per Ecology's earlier request.

The attached HWTU Part B permit application contains all the regulatory required information which is currently available. Due to the status of the design work on the 3100 Section of the HWTU, some information required by WAC 173-303-806 (and references therein) pertaining to the 3100 Section is presently unavailable. Such missing information has been noted in the text and will be provided to EPA and Ecology in a subsequent submittal when it becomes available.

Messrs. Day and Jansen
