JUN 19 1990

Mr. Steve Wisness
Hanford Project Manager
U.S. Department of Energy
Richland Operations Office
Post Office Box 550
Richland, Washington 99352

Dear Mr. Wisness,

Environmental Protection Agency (EPA) Region 10 has been reviewing the U.S. Department of Energy (DOE) May 1988 Hanford Site Waste Management Units (SWMU) Report (DOE/RL 88-30) which was previously developed responsive to Section 3004(u) of the Hazardous Solid Waste Amendments (HSWA) of the 1984 United States Code (USC).

As noted in the Introduction, this report was to have been updated annually in January. However, to date EPA Region 10 has not received the January 1990 update. EPA Region 10 therefore requests that this report be updated to include all newly identified SWMUs which are subject to RCRA Corrective Action Section 3004(u). This update should include, but not be limited to, the following units and areas: the 400 Aggregate Area, the 600 Aggregate Area, the Basalt Waste Isolation Project (BWIP) Mud Pits/Test Drilling Sites, the BPA Substation (Midway Landfills), the North Slope, U.S. Ecology, Near Surface Test Facility (NSTF)/Gable Mountain, gravel/borrow pits and newly identified unplanned releases from active units.

This update is requested within 30 days of the date of this letter to prepare the RCRA Corrective Action Section of the Hanford Federal Facility RCRA Permit scheduled to be issued jointly by EPA Region 10 and the Washington State Department of Ecology.

If you require any further assistance in this matter, please contact Mr. Dan Duncan on (206)442-6693 (FTS 399-6693).

Sincerely,

Dan Duncan, Environmental Engineer
Permits Section

cc: Paul Day, Hanford
Toby Michelena, Ecology
