222-S LABORATORY

FINAL REPORT FOR THE SAMPLES RECEIVED IN SEPTEMBER 2011, FOR SAF W11-009

1.0 INTRODUCTION

This final report presents the result for the three ground water samples taken on September 1, 2011, and September 6, 2011. The samples were analyzed in accordance with Sampling Authorization Form (SAF) W11-009 and ATL-MP-1011; *ATL Quality Assurance Project Plan for 222-S Laboratory* (QAPP). The following attachments are included in this report.

Attachment 1	Data Summary Report
Attachment 2	Holding Time Report
Attachment 3	Receipt Paperwork

2.0 SAMPLE RECEIPT AND HANDLING

The samples were received on September 20, 2011, in good condition and with adequate paperwork.

3.0 ANALYTICAL RESULTS SUMMARY

The Data Summary Report (Attachment 1) presents the final analytical results for those analytes requested in the SAF. The "Det Limit" column in Attachment 1 contains the method detection limit (MDL).

In Attachment 1, the column labeled "A#" indicates the aliquot class or the method used for sample preparation before analysis. For analysis without a separate preparation procedure, this column is left blank.

The "Qual Flags" column in Attachment 1 contains data qualifier flags that are defined as follows:

- "C" indicates that the analyte was detected in the method blank and the sample, and the concentration detected in the blank was greater than 20% of the sample result.
- "B" is applied to sample concentrations that are greater than the (MDL) but less than the estimated quantitation limit (EQL).

Manual calculations using rounded results from the Data Summary Report or result calculation forms may differ slightly from the actual results derived from the raw data.

4.0 CYANIDE

The cyanide analysis by distillation and spectrophotometry was performed on the ground water samples. All analyses met the SW-846 holding time of 14 days except for sample B2FVD3 (S11M000499). This sample had all ready exceeded its holding time by five days prior to receipt at the 222S Laboratory on September 20, 2011. It is the laboratory's opinion there was little or no affect on the data usability from the holding time excursion. The method blank result was

above the method detection limit. All sample results were less than five times the blank result. Since all results were below the EQL reanalysis was not required. Sample results have been flagged with a "C". All other quality control requirements in the laboratory QAPP were met.

5.0 PROCEDURES

Table 1 lists the analytical procedure used for analysis of this sample.

Table 1. Analytical Procedures.

Analysis	Preparation Method	Analysis Procedure
Cyanide	LA-695-102 Rev. M-0 SW-846 9010C	LA-695-102 Rev. M-0 SW-846 9014

RECEIPT PAPERWORK

ATL	SAMPLE RECEIPT AND CHAIN OF CUSTODY VERIFICATION CHECKLIST	LO-090-101 Rev <u>EE.0</u>
------------	---	----------------------------

Date Samples Received: _____ Group #: 2011491 3 CN
 Number of Samples: 15 2011492 4 PH
 Sample Custodian: [Signature] 2011493 8 CN

Sample Custodian to Complete:

Action	Yes	No	N/A	Comments
RSA/COC provided?	✓			
RSR provided?			✓	
Verify GKI is complete			✓	<input type="checkbox"/> In Project File
Check that outer custody seal is intact, if present			✓	
Record cooler temperature in centigrade, as appropriate	✓			<input type="checkbox"/> Check if no cooler and/or no ice
Samples are intact and in good condition	✓			If No, provide comments on back
Verify that COC or RSA is accurate and complete, containing the following information:				
• Client name and client sample number	✓			
• Date and time of sampling	✓			
• Sampling location or origin	✓			
• Container type, size, and number	✓			
• Preservatives (if used) are noted on the COC/RSA and sample bottle	✓			
• Analysis request is clear	✓			
• Signature of persons relinquishing and receiving samples	✓			
• Date and/or time of sample custody exchange	✓			
Verify that sample numbers on containers match the COC and/or RSA.	✓			
Samples stored properly (e.g., refrigeration)	✓			

Notify the PM immediately if any problems are noted. (Any "No" checked requires Project Manager resolution.)

PM to Complete:

Samples acceptable for release? yes PM Initials [Signature] Date 9.20.11
 If No, comment on communication and resolution: Per G.P.R
