UNIT MANAGERS MEETING  
NONRADIOACTIVE DANGEROUS WASTE LANDFILL  
740 Stevens Center Building  
Conference Room 2519  
Richland, Washington

Meeting Held March 2, 1993  
From 9:00 to 11:00 a.m.

Summary of Discussion and Commitments/Agreements

1. **Review, Amend, Approve and Distribute Prior Meeting Minutes:** Meeting minutes for the February 2, 1993, meeting were approved.

2. **Closure Activity Status:**

\* Ground Penetrating Radar interpretation report is finished and in WHC review. Report will be ready for DOE-RL review by a mid-March time frame.

\* Soil Gas Sampling Plan has been rescheduled for Monday March 8, 1993 (weather conditions permitting). The soil gas sampling will be spread over a period of time with insertion of the sampling probes to begin around a mid-March time frame. The probes will require two to three weeks to insert once work begins. Sampling of the soil gas is expected to begin in late April to early May. This will allow for warmer weather and provide a chance for the soil column to equilibrate after the probes have been placed. Ecology (Bob Cordts) will be notified at least 1 week prior to the placement of the probes and soil gas sampling by DOE-RL or WHC. Ecology (Bob Cordts) stated that a review may get underway for NRDWL Closure/Postclosure Plan in March.

3. **NEW BUSINESS:**

The next Unit manager meeting is scheduled for 1:00 - 3:00 p.m.; April 6, 1993.
