RE: Remedial Actions at 100-H-54 Project  
HCRC # 2013-100-014  
Log No.: 030412-04-DOE

Dear Ms. Wright;

Thank you for contacting our Department regarding the proposed *Remedial Actions at 100-H-54 Project* on the Hanford Site, Benton County, Washington.

We do not concur with the Determination of No Historic Properties Affected.

As you know BPA has identified Traditional Cultural Properties on the Hanford Site that are currently being reviewed by the National Park Service and the Advisory Council on Historic Preservation.

We believe further consultations are necessary given the ongoing Section 304 case from BPA.

Please contact the BPA regarding these properties and your project. We look forward to further consultations and please provide written correspondence from BPA regarding these properties in relation to this Project.

We would appreciate receiving any correspondence or comments from concerned tribes or other parties that you receive as you consult under the requirements of 36CFR800.4(a)(4). These comments are based on the information available at the time of this review and on the behalf of the State Historic Preservation Officer in conformance with Section 106 of the National Historic Preservation Act, as amended, and its implementing regulations 36CFR800. Should additional information become available, our assessment may be revised.

Thank you for the opportunity to comment and a copy of these comments should be included in subsequent environmental documents.

Sincerely,

Robert G. Whitlam, Ph.D.  
State Archaeologist  
(360) 586-3080
