Re: Sampling and Analysis Plan for the 100 Area Remaining Sites, DOE/RL-99-58, Rev. 0

Dear Mr. Goldberg:

53888

The U.S. Environmental Protection Agency (EPA) and Washington State Department of Ecology (Ecology) deny approval of the Sampling and Analysis Plan (SAP) for the 100 Area Remaining Sites.

In order to receive approval of the SAP, the Tri-Parties must establish milestones for the sampling of the waste sites found in Table A-2 of the 100 Area Remaining Sites Interim Record of Decision. After milestones are established, the SAP must undergo revision to incorporate the sampling schedule into the SAP.

If you have any questions, please contact Dennis Faulk, EPA, at 509-376-8631 or John Price, Ecology, at 509-736-3029.

Sincerely,

Dennis Faulk
EPA, 100 Area Project Manager

John Price
Ecology, Cleanup Project Manager
