Dear Mr. Scott:

Re: North Slope Expedited Response Action Proposal

Thank you for expressing your concern for the preservation of this unique habitat. However, the task at hand is not future use of the Wahluke Slope, but the cleanup of the landfills and other waste sites in the area. The Washington State Department of Ecology supports the Future Site Uses Working Group's recommendations, and will drive the cleanup toward that end. 2/5/94

Enclosed is a focus sheet with information on the background and status of the Wahluke Slope cleanup proposal. You may view this and other documents at the listed Hanford Tri-Party Agreement Repositories. Your comments on this cleanup plan will be greatly appreciated.

Again, thank you for your interest in the Wahluke Slope. If you have any questions, please contact me at (509) 736-3026, or Dib Goswami at (509) 736-3015.

Sincerely,
