Mr. Timothy L. Nord
Hanford Project Manager
State of Washington
Department of Ecology
99 South Sound
Lacey, Washington 98503

Dear Messrs. Day and Nord:

NOTIFICATION OF REVISION OF MILESTONE M-20-14 FROM PART B TO CLOSURE PLAN SUBMITTAL (S-4-1)

The U.S. Department of Energy, Richland Operations Office (DOE-RL) has looked at alternative methods of alkali metals storage, and has concluded that the 4843 Alkali Metal Storage Facility (4843 AMSF) will no longer be used to store dangerous and mixed waste. Because of this, it is requested that Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) Milestone M-20-14 be reworded to request submittal of a closure plan and that a new date for closure plan submission be negotiated. To that end, a Tri-Party Agreement Change Control Form will be provided as a separate transmittal.

Currently, the 4843 AMSF is storing dangerous and mixed waste. An action plan is in preparation that will outline the approach that will be taken to remove the waste from this unit. This action plan will be discussed with members of your staff upon its completion, currently scheduled for the end of November 1990. The contents of the action plan will serve as the basis for the closure schedule to be included in the closure plan. To accommodate the action plan and closure plan development, we are requesting that the date for the closure plan submittal be established as June 30, 1991.

01015902119

NOV 21 1990

Messrs. Day and Nord -2-

Please direct any questions you may have regarding this request to Mr. C. E. Clark, DOE-RL on (509) 376-9333, or Ms. C. J. Geier, Westinghouse Hanford Company on (509) 376-2237.

Sincerely,

E. D. Izatt

R. D. Izatt, Director
