Re: Sampling and Analysis Plans, Third Submission

Dear Mr. Izatt:

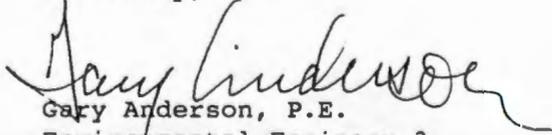

I have received the Sampling and Analysis Plans for Milestones M-17-27, 30, 31, 32A, 33, 36, 37, 38A, 42A, and 44. I would like to visit each of the sites that I have not previously visited in order to see the sources and sampling locations for each of these sampling and analysis plans.

The sites I would like to visit are 241A Tank Farm, 244-AR Vault, 284-E Powerplant, 183-D Filter and the 400 Area. I have previously visited the remaining sites in connection with previous submissions.

We need to make these arrangements as soon as possible since I am taking some leave near the end of this month.

If you have any questions about this letter, please call me at (206) 438-7558.

Sincerely,

Gary Anderson, P.E.
Environmental Engineer 3
Nuclear and Mixed Waste Management
