Ephrata, Washington 98823

Dear Ms. Seelatsee:

SUPPLEMENTAL REMEDIAL INVESTIGATION/ FEASIBILITY STUDY WORK PLAN  
FOR THE 200 AREAS CENTRAL PLATEAU OPERABLE UNITS, DOE/RL-2007-02,  
DRAFT A, VOLUMES I AND II

6072587

The purpose of this letter is to submit the attached Supplemental Remedial Investigation/Feasibility Study Work Plan for the 200 Areas Central Plateau Operable Units, DOE/RL-2007-02, DRAFT A, Volumes I and II for your review and information.

This draft work plan presents the sampling strategy and rationale for collecting supplemental remedial investigation data for the Central Plateau soil operable unit waste sites identified during a recently completed data quality objectives (DQO) development process conducted between RL and the regulators. This DQO process focused on identification of additional data needs that would lead to improved capability for the Tri-Party agencies to make final records of decision for remediation of the Central Plateau soil waste site operable units.

The review is scheduled for completion by May 30, 2007. Please provide any comments on or before that date. If you have any questions, please contact me, or your staff may contact Briant Charboneau, of my staff, on (509) 373-6137.

Sincerely,

Matthew S. McCormick, Assistant Manager  
for the Central Plateau
