Re: C-018H Pilot Plant Research Development and Demonstration Permit

Dear Mr. Duncan:

We have received from the U.S. Department of Energy a copy of their draft Project C-018H Pilot Plant RD & D Part B Permit Application. After a cursory review of the draft, Ecology has determined that a final facility Part B treatment permit in accordance with the provisions of WAC 173-303-806 will not be required for the proposed pilot plant research activities. We are therefore deferring to the EPA's RD & D permitting authorities to permit this project.

However, we intend to remain in a review and approval mode for this application as this project significantly impacts other projects for which Ecology remains the lead regulatory agency.

If you have any questions, comments or both, please do not hesitate to contact me at (206) 459-6725.

Sincerely,

Paul R. Stasch
Compliance Specialist
