**COMPLETION OF HANFORD FEDERAL FACILITY AGREEMENT AND CONSENT
 ORDER (TRI-PARTY AGREEMENT) MILESTONE M-16-26G**

The U.S. Department of Energy, Richland Operations Office (RL) is pleased to inform you that removal of the filter boxes and closeout of the 100-B-12 waste site was completed on May 31, 2001. This activity marks the completion of Tri-Party Agreement Milestone M-16-26G, "Remove filter boxes and complete verification sampling for 100-B-12 waste site," which was completed four months ahead of the September 30, 2001, milestone date. Please note that a site survey was performed to downpost the radiological materials area in lieu of verification sampling. The U.S. Environmental Protection Agency Project Manager, Dennis Faulk, signed the Waste Site Reclassification Form (2001-016).

If you have any comments or questions, please contact Alex Teimouri, RL Regulatory Compliance and Analysis Division, on (509) 376-6222, or Chris Smith, RL Environmental Restoration Division, on (509) 372-1544.

Sincerely,

Joel Hebdon, Director
 Regulatory Compliance and Analysis Division
