Dear Mr. Bauer:

This letter is in response to your submittal of November 15, 1993, requesting approval of construction for the Carbon Dioxide Decontamination at Tank 241-C-106. My staff has reviewed your submittal, and based on that review I have determined that the proposed facility, if properly operated, will not cause emissions to exceed the standards of Title 40 Code of Federal Regulations (40 C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08, I hereby grant approval of construction for the Carbon Dioxide Decontamination at Tank 241-C-106 as described.

If you have any questions regarding this approval, please contact me at (206) 553-4152, or Richard Poeton at (206) 553-8633 for technical matters.

Sincerely,

Jim McCormick, Director
Air and Toxics Division
