Ms. J. A. Hedges, Program Manager  
 Nuclear Waste Program  
 State of Washington  
 Department of Ecology  
 3100 Port of Benton  
 Richland, Washington 99354

Dear Ms. Hedges:

1230853  
 POST-CLOSURE CORRECTIVE ACTION GROUNDWATER MONITORING REPORT FOR  
 THE 183H SOLAR EVAPORATION BASINS AND THE 300 AREA PROCESS TRENCHES:  
 JANUARY – JUNE 2014, SGW-58475, REVISION 1

This letter transmits the Post-Closure Corrective Action Groundwater Monitoring Report for the 183H Solar Evaporation Basins and the 300 Area Process Trenches: January – June 2014, SGW-58475, Revision 1 to the Washington State Department of Ecology (Ecology).

This is the first 2014 semiannual report on post-closure corrective action groundwater monitoring for the 183H Solar Evaporation Basins and the 300 Area Process Trenches. It fulfills the requirement of WAC 173-303-645(11)(g) to report twice each year on the effectiveness of the corrective action program.

1228082  
 SGW-58475, Revision 0 was transmitted to Ecology on February 11, 2015, by letter 15-AMRP-0077. The reason for revision was to make the semiannual reporting of uranium consistent with the annual groundwater report. The report was revised to report the non-detections of uranium measured by kinetic phosphorescence analysis as less than the minimum detectable activity value.

Additionally, in the executive summary, introduction, and prefaces for both the 183-H Solar Evaporation Basins and 300 Area Process Trenches, a paragraph regarding the reporting of uranium as being included for information only and not subject to regulation under RCRA, was added.

Ms. J. A. Hedges  
15-AMRP-0280
