Dear Mr. Izatt:

RE: Hanford Agreement Budget Discussions

Please extend my thanks to Bob Rosselli, Becky Austin, and their staff for the time spent describing USDOE-RL budget processes with Jeff Breckel and I on June 13, 1989. Jeff and I each felt this was a good initial session and are anxious to build on it. I'm sure you recognize that establishing a working relationship under paragraphs 138 and 139 of the Agreement is critical to building confidence in the cleanup effort, and in our being able to work with our delegation and with appropriation committee members as the budget proceeds to passage.

I am consequently asking that we schedule a follow-up session, at your earliest convenience, in order to address the following:

1. For Fiscal Year 1990: Jeff and I need information which details the extent to which USDOE has assessed FY90 costs under each specific milestone within the Hanford Federal Facility Agreement and Consent Order. This information will allow us to assess the adequacy of the proposed budget against work planned or in progress.

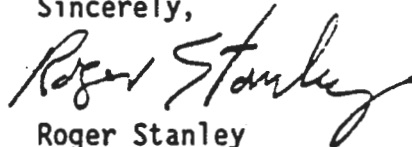

As part of this assessment, we will also need to document any FY90 projects (and associated necessary additional funding) which have been identified since this budget was submitted to congress.

2. For Fiscal Year 1991: Similar to the above; we need to be able to reconstruct the extent to which USDOE has developed cost projections for compliance with each Agreement milestone (from contractor field work proposal packages through to the final draft as submitted to USDOE HQ).

Your cooperation in this important aspect of the Hanford compliance and cleanup effort is appreciated.

Sincerely,

Roger Stanley
Hanford Project Manager
