Mr. Randall Brich
U.S. Department of Energy
Richland Operations Office
P. O. Box 550
Richland, Washington 99352

Dear Mr. Brich:

The Department of Health has reviewed the *Preliminary Draft Conceptual Plan for the Columbia River Comprehensive Impact Assessment* and believe it contains all but one of the changes that were suggested during the last CRCIA meeting. The one missing suggestion relates to the inclusion of the future effects of 200 Area plumes on the river. This lack of inclusion should be formally addressed so that all parties are cognizant of the reason(s). Through this specific delineation of reasons a mutual understanding can hopefully be achieved.

Should questions arise, I may be reached at (360) 586-3306.

Sincerely,

John L. Erickson, Head
Environmental Radiation Section
Division of Radiation Protection
